Documentation supporting the exemption must be attached to or part of this certificate in order for a seller to accept the exemption certificate. The acceptance of a properly-completed certificate relieves the seller of liability. The documentation must be specific when listing processing/agricultural activities. All taxable activities must also be listed except that they may be lumped into more general categories such as lighting, office, heating, air conditioning, etc. A purchaser may petition the Iowa Department of Revenue for a review of its fuel exemption certificate. If information necessary to determine exemption percentage is not provided, the department will request additional information. If the department does not review the certificate within 12 months from the date the application for review is made, the fuel exemption certificate is deemed to be correct. "Fuel" includes gas, electricity, water, heat, steam and any other tangible personal property consumed in creating heat, power or steam.

Under penalties of perjury, I swear or affirm that the information on and attached to this form is true and correct as to every material matter.
